of our health.

Our Story

Committed to making the world a happier and healthier place

As a young boy, Jerry Brassfield suffered from severe asthma and allergies. Determined to find relief for her sick son, Jerry's mother began adding quality nutritional products to his daily diet. It was then that he discovered the profound impact quality supplements could play in helping restore good health.

Because of his passion for helping others, Jerry began sharing his powerful testimony with those around him and realized most people were in need of a solution to a lack of good nutrition. Sharing the products and working with others to set and achieve both health and financial goals turned out to be a financially rewarding home-based business.

His belief in the products and desire to change lives is what paved the way for Jerry to turn his small network marketing business into a global multimillion-dollar company.

Pro Vitality™ Essential Cellular Nutrition

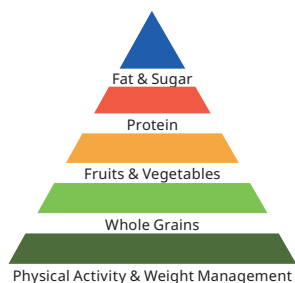

Change your life, one cell at a time

Challenge Yourself To Live Better

- #1 cause of diet-related death is a lack of whole grains¹
- The average American consumes less than one daily serving of whole grains²
- Protective phytolipids and phytosterols found in whole grains have been stripped from many packaged foods to increase their shelf life
- It's difficult for most people to get the recommended servings of fruits and vegetables daily
- Many **don't eat fish** due to concerns about heavy metals and contaminants
- A majority of people are **below the average requirement** for some basic essential vitamins and minerals

Almost
90%

of Americans do not meet vegetable intake recommendations.³

NeoLife Wellness Pyramid

Discover the peak of wellness

Along with a healthy diet and lifestyle, Pro Vitality™ can help you achieve your ideal wellness pyramid by filling in the nutritional gaps of the typical American diet.*

- 1** Tre-en-en® Grain Concentrates
Feed Your Cells – Enhance Your Energy*
- 2** Carotenoid Complex™
Protect Your Cells – Optimize Your Immunity*

NeoLife products use only
GMO-free ingredients.

1 Your cells are hungry, feed them!

Lipids and sterols are critical components of our cell membranes, and are needed to ensure the transport of nutrients into and waste out of the cells. Unfortunately, grain processing strips out the outer nutrient-dense layers that provide phytolipids, phytosterols and other vital nutrients from foods. This leads to inefficiency at the cellular level, leaving you feeling tired and sluggish as well.

— Tre-en-en supplies **whole grain lipids** and **sterols** missing from our diets.

2 Protect your cells*

Optimizes immune function by providing a full spectrum of protective carotenoids from a variety of nutrient-rich fruits and vegetables.*

Clinically tested

One of the world's first supplements featuring food-derived concentrates to be clinically studied by USDA researchers to support heart health and boost immune function.*

Carotenoid Complex™
90 softgels

Backed by Science

Energy starts with nutritional assurance at the cellular level

Tre-en-en is the world's first lipid and sterol supplement derived from real grains to enhance energy and vitality by optimizing cell membrane function.* It energizes your entire body by helping your cells function more efficiently.*

Tre-en-en feeds the cells

If cellular membranes are starved of vital nutrients (lipids and sterols found in whole grains), they become inflexible and can't perform critical functions. Whole grain lipids and sterols allow your cell membranes to become their flexible best, making it easier for nutrients to get in and waste to get out.*

Unhealthy cell
Nutrients can't get in, waste can't get out

Healthy cell with Tre-en-en
Nutrients get in, waste gets out

Scientifically Studied Performance

It was shown that when Tre-en-en is present in the diet, overall growth and development, nutrient utilization efficiency and cardiovascular development improved.*

Boost overall immune function* by 37% in just 20 days**

- Enhances immune response of white blood cell – “natural killer” cells and lymphocytes*
- Reduces oxidation of cholesterol thereby promoting heart health*
- Boosts antioxidant levels in the blood for long-term cellular protection against free radical damage*

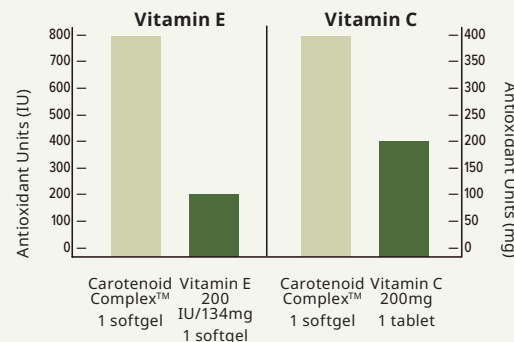

An immunity boost from garden and grove

When we eat our fruits and veggies, the phytonutrients in those plants may protect our cells from dangerous elements, and pump up our immune systems. Research has pointed to the immune-boosting power of carotenoids, which are found in red, orange, yellow, and deep green fruits and vegetables.

Full-spectrum goodness that's easy to absorb

More than just beta-carotene, Carotenoid Complex provides a full spectrum of 15 powerful carotenoids from carrots, tomatoes, spinach, red bell peppers, strawberries, apricots and peaches— all in a base of pure olive oil to enhance absorption.*

More antioxidant power than vitamins E and C*

**NOTE: measured as an increase in overall lymphocyte proliferation, a recognized standard for measuring immune competence and capacity to respond to an immune challenge.

Why it works

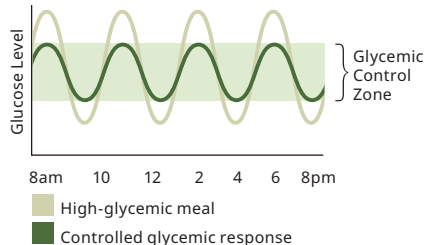

Glycemic Response Control Technology

Consuming meals that cause sugar spikes throughout the day forces your body to go through a glycemic roller coaster. A controlled glycemic response promotes steady energy levels, minimizes fat storage and promotes fat burning.

Build and Maintain Lean Muscle*

Whey protein is rich in branched chain amino acids, specifically Leucine, which is associated with forming muscles and retaining lean body mass to promote long-term and effective weight loss.

CONTROLLED GLYCEMIC RESPONSE Supports Normal Blood Sugar Levels*

Stay Full and Energized*

NeoLife Weight Management promotes gut-brain satiety signaling.* Exclusive high quality fiber and protein blends help you feel full faster and stay full longer, controlling your appetite and maintaining your energy levels—which are key to achieving a healthy weight!†

Omega-III Salmon Oil Plus™

The World Health Organization and many other leading health authorities agree – increasing the omega-3 fatty acid content of the diet is critical in helping solve the chronic disease epidemic. Tré™ – A potent shot of wellness*

Immune Support, Healthy Aging, and Cognitive Function*

Tré is a bioactive nutritional essence that harnesses the rich, rejuvenating bounty of nature. Tré is drawn from a select group of nature's **most powerful and unique super fruits** that are naturally rich in bioactive compounds, called polyphenols, that have the remarkable ability to promote health. Science has shown that the polyphenols play a wide range of critical roles in supporting and promoting **health, longevity** and **cognitive function**. Research also tells us that when polyphenols are absent or deficient in our diets, aging processes are accelerated and the disease risk is higher. Conversely, when they are abundant in our diets, **aging is slowed and disease risk is lower**. The standardized and focused nutrient diversity of Tré is a pure expression of nature's plan for human nutrition.*

With Your Help We Are Making A Positive Difference Throughout The World

NeoLife has a rich history of involvement with organizations that help those less fortunate. From local programs to international commitments, the NeoLife Family Foundation carefully selects charitable organizations and causes that truly make a difference. A generous percentage of profit from every product sold is allocated toward funding the NeoLife Family Foundation philanthropic outreach.

NeoLife Family Foundation

Our Cause

We are believers in giving back where your heart is, and ours is in giving to children. We carefully select charities aimed at helping the least fortunate children. The NeoLife Family Foundation (NFF) is committed to finding organizations that meet our rigorous standards, where over 90% of every dollar donated goes directly to the children.

Organizations We Support:

- NeoLife is a major corporate sponsor of Compassion International. They work through thousands of local churches around the world to release children and their families from poverty.
- NFF just funded the development of two new survival programs for mommies and babies, one in Kenya and one in Uganda. We're providing the funds for the buildings, infrastructure and staffing to launch the program as well as the operating expenses for the first year for new mommies and babies who are coming into the program. They receive prenatal care, hospitalization during birth, and medical care for the entire first year of the baby's life. The first year is a big deal in these struggling communities.

- This organization helps children in extreme poverty who have special needs, and they give them access to medical care and other basic needs like a wheelchair so these children can live near normal lives and play like all kids should be able to do. NFF has funded the care of tens of thousands of special needs children.

- NFF has funded the building of school buildings to serve the local children as well as NeoLifeShakes to feed them, and cleaning products to help them stay protected during the pandemic.

Other Organizations

- A not-for-profit school lunch program that provides daily hot meals to 15,000 children in Tanzania. In their school lunch they receive our flagship product, Formula IV® with Tre-en-en® Grain Concentrates. The program has been able to triple its size with our backing.
- A Christian organization based in San Jose, California, that offers food, shelter and guidance to children who are in desperate need of help.
- An orphanage in Lima, Peru, that provides food, medical services and refuge for children who don't have the resources to help themselves.
- An organization in Las Vegas, Nevada, that helps poor children in difficult life situations, such as abusive homes, go to a Christian summer camp.
- In India, an outreach organization that cares for the rejected social class known as the "Untouchables."
- In Mexico, a children's program providing food, mentoring and recreation to help the next generation thrive.
